

TUBE ICE MACHINE

Salient Features :

- Capacities offered: 2 TPD to 60 TPD of ice or more
- Tube ice dimensions: 22 mm, 28 mm, 35 mm diameter
- Design/Engineering simplicity
- No requirement of skilled workers
- High durability, minimum maintenance
- High energy efficiency

MACHINE COMPONENTS

- *Stainless steel tube*
- *Water Distributors: Made up of elastic material which creates a continuous uninterrupted peripheral seal between the tube ends and water distributor.*
- *Accumulator*
- *Refrigerant: Ammonia /R-22 /R404A*
- *Float switch*
- *High quality stainless steel for all water and ice contact surfaces providing corrosion resistance easy to clean*
- **Cutter** : *Stainless steel cutters driven by gear motors are uniquely designed to produce both cylindrical and crushed ice simply by reversing the motor of the cutter using a switch on the control panel that controls this function*
- **Motors**: *Built with heavy duty design to give years of reliable ice-sizing service*
- **Pumping Tank (Water Pumps)** : *High quality Water Pump , SS Pump Optional*
- **Compressor** *Compatible For R-22 /R404A/R717*
- **Control Panel** *With electrical safety.*

TUBE ICE EVAPORATOR (AMMONIA)

Industries

- Chemical
- Floriculture
- Fruits & Vegetable
- Processing Companies
- Cereals
- Pharmaceutical
- Dairy
- Sports & Entertainment
- Sea Food

FLAKE ICE & REFRIGERATION SYSTEMS PRIVATE LIMITED

TUBE ICE MACHINE PACK

<i>Tube Ice Machine Details</i>						
Sr. No.	M/c Model	Camp. Mode No.	Condenser Type	Gas	Ref. Capacity In Kw	Production in Ton
1	SIL-T-015	Bitzer	Air / Water	Freon	10.5Kw	1.5 Tons
			Cooled			
2	SIL-T-03	Bitzer	Air / Water	Freon	21Kw	3 Tons
			Cooled			
3	SIL-T-05	Bitzer	Air / Water	Freon	35Kw	5 Tons
			Cooled			
4	SIL-T-08	Bitzer	Air / Water	Freon	49Kw	7.5 Tons
			Cooled			
5	SIL-T-12	KC 2	Water Cooled	Ammonia	85Kw	12 Tons
4	SIL-T-18	KC 3	Water Cooled	Ammonia	127Kw	18 Tons
5	SIL-T-24	KC 4	Water Cooled	Ammonia	170Kw	24 Tons
6	SIL-T-40	KC 6	Water Cooled	Ammonia	360Kw	40 Tons

Other Products

- Unit Coolers for the Cold Rooms and the Chill Room.
- Evaporative Condensers, Receivers and Accumulators for our turn-key projects.
- Evaporative Refrigeration System for the Flake Ice Machine & Flake ice Generators
- Industrial Water Chillers for the processing industry

TUBE ICE MACHINE PACK
